

POOLSQUAD® AUTOSALT®

3 sizes of cabinets depending on the chlorine demand of the installation

Saltwater chlorination and pH regulation

MODULARITY FOR A CUSTOMISED SOLUTION

- **The modular design** allows a custom-built solution for each installation
- **Electronic control cabinet** built up from several control modules. Each module is independent and controls its own chlorination cell
- **Build by your own system** for a production of chlorine up to 15 kg/day (for a filtration 24/24). We can meet higher chlorine production requirements, consult us

PERFORMANCE

- **Our exclusive Smart Power technology** allows to operate at any salt level from 2.5 g/l to 35 g/l.
- **Comprehensive functionalities** to facilitate set up and maintenance: AUTOSALT / POOLSQUAD technology (page 32 or 36 according to model)
- **Upgradable device:** software update, compatible with many options

SAFETY

- **Disinfection safety:** process is insured in case of the failure of a module or a chlorination cell thanks to the redundant conception
- In case of failure of the pH probe, the device operates in a pH dosing mode and stabilises the pH according to the history of events (POOLSQUAD)

AUTOSALT®/POOLSQUAD® Professional +

- **Amperometric** chlorine regulation
- Works with **sea water**
- Navigation menu available in 9 languages

4 l/h PUMP POOLSQUAD® provide a double treatment: saltwater chlorination and pH chlorination

“ Today, I only propose saltwater chlorination treatment to my hotel customers ”

Mr PLUNGER, Directeur Général
ONDA PLUS GmBH SRL – Italy

For 6 years, we have equipped about 40 hotel swimming pools in the North of Italy.

In the region, Professional chlorinators are becoming popular, a saltwater pool is now a must when choosing a hotel! Besides the comfort of their customers, the hotel managers particularly appreciate the maintenance and the running costs of the solution. Both are significantly reduced in comparison with a chemical treatment. Today, I only propose saltwater chlorination treatment to my hotel customers. They try it and they adopt it systematically!

CHLORINE PRODUCTION G/H	AUTOSALT® SALWATER CHLORINATION	POOLSQUAD® SALWATER CHLORINATION & PH REGULATION	NUMBER OF CELLS
