

Opaque winter covers

for existing pools and pools under construction

Wintersafe

Opaque winter cover

Wintersafe

- Protects the exposed area of the pool waterproofing
 - Inhibits photosynthesis
 - Retains leaves and debris
 - Secures pools
-
- Very good resistance to tensile stress loading
 - Great dimensional stability

The WINTERSAFE cover provides your pool with exceptional protection throughout the winter season.

Leaves and debris, discoloration of your pool waterproofing, algal growth and other inconveniences of winter become a thing of the past. WINTERSAFE makes the reopening of your pool simple and effortless.

WINTERSAFE's ingenious design combines light weight with exceptional strength and visual appeal ensuring that WINTERSAFE covers blend effortlessly into the pool surroundings to guarantee outstanding protection.

WINTERSAFE covers meet the requirements of the French safety standard NF P 90-308.

WINTERSAFE is an opaque cover made of reinforced, weft inlaid 650 g polyester coated with PVC. The underside of the cover in contact with the ground is beige coloured to prevent staining of the coping. Cleverly spaced perforations allow rain water to drain rapidly, thus avoiding the formation of water pockets. Covers fitted with step pieces and free-form covers feature additional perforations judiciously placed to ensure maximum efficiency.

While perforations are permeable to water, they are not permeable to light, thus the pool remains protected against the ill-effect of photosynthesis.

WINTERSAFE's PVC coating is UV-proof and is not deteriorated by chlorinated products. Its bright, varnished finish is both attractive and stain resistant.

The WINTERSAFE cover is edged with a continuous PVC profiled strip designed to receive Fixkits that are fastened to the ground. This fastening system ensures that the cover fabric can be flattened evenly against the coping, thus reducing flapping and abrasion.

WINTERSAFE covers comply with every stipulation of the French safety standard NF P 90-308.

Each WINTERSAFE cover comes with its own storage bag.

Available colours:

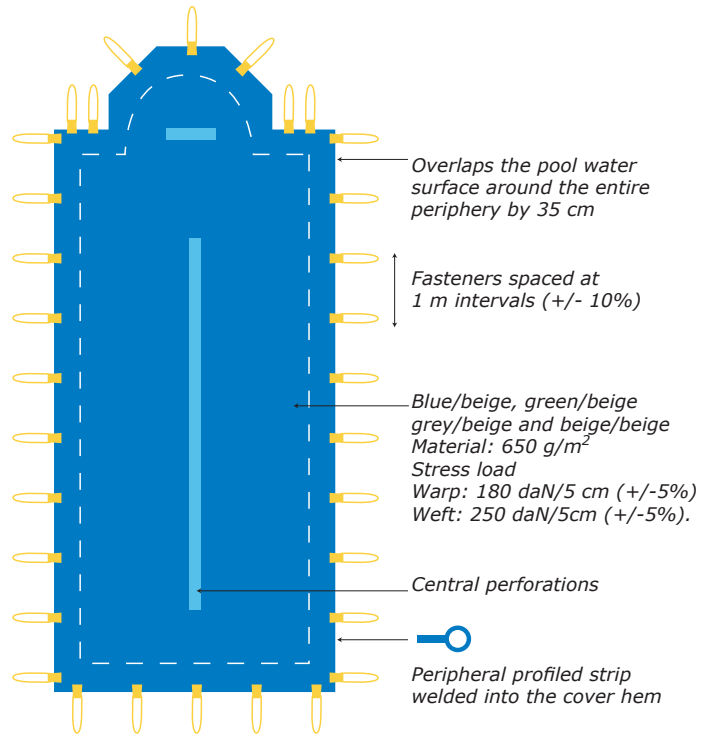

blue/beige

green/beige

grey/beige

beige/beige

The underside of each cover is beige to avoid discoloration of the coping.
